Geomatic Technologies

Geomatic Technologies honoured at the 2006 Victorian Spatial Excellence Awards

8th September 2006, Melbourne, Australia – At the 2006 Victorian Spatial Excellence Awards Richelle Pearson of Geomatic Technologies (GT), was honoured with the Young Spatial Professional of the Year Award. This prestigious Awards night was held at the Melbourne Aquarium on Wednesday the 6th September. The evening was hosted by the Victorian Regional groups of the Australian Spatial Information Business Association (ASIBA) and the Spatial Sciences Institute (SSI).

The 2006 Victorian Spatial Excellence Awards aim to reward individuals and organisations for their accomplishments and contributions to their industry. In addition, they enable individuals and organisations to compete against the best in Victoria. The panel of judges consisted of industry peers appointed by the ASIBA and SSI, for their appreciation of the wide spectrum of applications in spatial information and its associated technologies.

Bruce Thompson, Director Spatial Information Infrastructure, Dept. of Sustainability and Environment, presenting the “Young Spatial Professional of the Year” Award to Richelle Pearson, Geomatic Technologies

Richelle is a Business Analyst for GT and is responsible for liaising between customer project representatives, internal project managers and technology consultants. Richelle provides technical input to problem solving and the development of strategies and solutions for customers. The Young Spatial Professional of the Year Award recognised Richelle’s significant contribution, in “introducing leading edge spatial concepts to people inside and outside the profession and being recognised as a mentor in the spatial industry.”

Being a quiet achiever, Richelle appeared overwhelmed and modest when accepting the award. During the course of the evening, Richelle commented on how humbled she felt to have been a nominee and that winning was an unexpected surprise.

In addition to Richelle winning the Young Spatial Professional of the Year award, Geomatic Technologies and the Department of Infrastructure (DOI) also won the Infrastructure and Construction Award and the Victorian Government Award for Spatial Excellence.
